The Cost Share report contains information about the cost sharing associated with Funding Proposals in the Princeton ERA system. The Cost Share report includes the department and fund responsible for funding the cost sharing, the cost sharing type, cost share fiscal year, cost share amount(s) and other information.

When should the report be used?
- The Cost Share report is designed to be run by departments on an as-needed basis to view what Cost Share Commitments exist on proposals that either their department has submitted, their PI’s proposals submitted by other departments, and that they are responsible for funding.

Key things to note about the report
- Report information is limited to proposals in Princeton ERA only. Proposals from Coeus will not appear on this report.
- Report information is limited to pre-award information. Any changes made during the post-award stage will not be reflected on this report.
- Report information is as of the end of the previous business day.
- Can be run by Submit Date, Submitting Department ID, Cost Share Department ID, PI, Proposal ID, Proposal Status, Fiscal Year, and Total Cost Share Commitments Over
- Report can be run to view either proposals that a department is responsible for, or for cost share commitments that a department is responsible for.

Report overview

Report field definitions
- **Funding Proposal ID:** Unique identifier that is assigned by Princeton ERA system to each proposal created.
- **Status:** The state that the proposal is currently in, in the workflow.
- **Submit Date:** The date that the proposal was approved by the ORPA GCA and submitted to the sponsor (i.e. the date the proposal transitioned to the Pending Sponsor Review state).
